Product Designer with 5+ years designing digital products for startups and businesses — intuitive, scalable, human-centered experiences across mobile apps, SaaS platforms, and enterprise systems. I work closely with developers, product managers, and international clients to turn complex requirements into simple, usable products, combining user research, business strategy, accessibility, design systems, and iterative testing.

EXPERIENCE

Product Designer — Global 360 Ventures (3 mos) Jun 2026 – Present

Product Designer — Genie InfoTech (5 yrs 1 mo) Jun 2021 – Jun 2026 · Dhaka

- Independently designed and launched 9+ mobile apps, including Maway, Limadi, Athkar, and Gifty.
- Led end-to-end design across mobile, SaaS, and enterprise systems for long-term international clients — one SaaS engagement ran ~3.5 years with a client in Denmark.
- Owned the full design process: user flows, wireframes, UI systems, testing, developer handoff.
- Tools: Figma, Miro, Adobe XD, Zeplin.

UI/UX Designer (Part-Time) — Doodle's Design (6 mos) Jan 2022 – Jun 2022

- Translated client requirements into high-fidelity UI for web and mobile, working remotely in a fast-paced team.

Junior UI/UX Designer (Freelance) — Doktorbhai App (3 mos) Jun 2021 – Aug 2021

- Redesigned a medical mobile app UI for improved usability and new features.

Freelance Graphic Designer — Fiverr (Level 2 Seller) (9+ yrs) 2017 – Present

- Delivered 200+ projects, including logo and t-shirt design.

AREAS OF EXPERTISE

Product Design

UX Strategy

UI Design

Mobile App Design

SaaS Product Design

Enterprise UX

Design Systems

User Research

Wireframing

Information Architecture

User Flows

Prototyping

Accessibility

Interaction Design

Cross-functional Collaboration

INDUSTRY FOCUS

PRIMARY — SAAS PRODUCTS

Complex workflows inside business software: CRM, ERP, admin panels, internal tools, analytics platforms, productivity software.

SECONDARY — HEALTHCARE

Building toward Healthcare Product Design — systems that improve patient safety, clinician workflows, and accessibility. EHRs, HIPAA-aware design thinking, patient portals, doctor dashboards, medical SaaS, appointment systems.

DESIGN SYSTEMS

Investing deeply in modern design systems, with a long-term goal of growing into a Design System Manager role.
